About GECI International

For 30 years, GECI International has been established as a specialist in high technology engineering, with a preponderant presence in the world of aeronautics. Working in the four corners of the world, GECI International's 1,000 staff, engineers and researchers are constantly ready to meet today's and tomorrow's technological challenges.

GECI International combines excellence, passion to innovation to propose, on the one hand, via its GECI Engineering division an offer of expertise and global solutions in the fields of aeronautics, transport and infrastructures and, on the other, via its GECI Aviation a range of twin turboprop aircraft: the F406 and the Skylander SK-105.

The F406, produced by Reims Aviation Industries, is recognised by operators worldwide as an aircraft that is particularly suited to surveillance missions. The Skylander SK-105, produced by Sky Aircraft, stands out due to its exceptional performances, its ability to operate in extreme environments and its very competitive purchase and maintenance costs.
