

PRESS RELEASE

First drawdown as part of the funding agreement with YA Global Master SPV Ltd

May 4, 2012

Passion for excellence and innovation

**GECI INTERNATIONAL MAKES A FIRST DRAWDOWN OF
€249,998.61 ON THE WORKING CAPITAL LINE MADE
AVAILABLE BY YA GLOBAL MASTER SPV LTD**

GECI International has announced that, on May 3, 2012, it proceeded with its first drawdown as part of the program to increase its capital by issuing shares, drawn up with the YA GLOBAL MASTER SPV Ltd fund, as announced on April 26, 2012, over a 3-month period, and limited to a maximum of 9 million shares by successive drawdowns and to 10% of the company's capital by period of 12 sliding months.

Characteristics of this first drawdown:

- Amount of the capital increase: €249,998.61, of which €36,085.25 in company capital, and €213,913.36 in issue premiums.
- Number of shares created: 144,341.
- Unit share issue price: €1.7320, calculated after a 6% discount on the lowest average daily price, weighted by the volumes of the GECI International share of the previous five trading days and including the drawdown request day. The issue price was ratified by the Chairman and CEO by delegation by the Board of Directors of GECI International.

The new shares issued on this day will be freely negotiable and immediately deemed equivalent to ordinary shares listed on Euronext Paris. Further to this operation, 33,230,716 GECI International shares are today in circulation.

As already announced, this drawdown aims to cover, in part, the cash flow requirements of the Skylander Program, of the order of at least €2 million per month, for as long as the negotiations in progress on its financing have not been concluded. At the current transaction prices and volumes, and under the conditions of the signed agreement, the SEDA will allow the Company to obtain approximately €6 million over the next 4 months.

Europe Offering was involved as an advisor in the provision of the working capital line.

About GECI International

For 30 years, GECI International has been established as a specialist in high technology engineering, with a preponderant presence in the world of aeronautics. Working in the four corners of the world, GECI International's 1,000 staff, engineers and researchers are constantly ready to meet today's and tomorrow's technological challenges.

GECI International combines excellence, passion to innovation to propose, on the one hand, via its GECI Engineering division an offer of expertise and global solutions in the fields of aeronautics, transport and infrastructures and, on the other, via its GECI Aviation a range of twin turboprop aircraft: the F406 and the Skylander SK-105.

The F406, produced by Reims Aviation Industries, is recognised by operators worldwide as an aircraft that is particularly suited to surveillance missions. The Skylander SK-105, produced by Sky Aircraft, stands out due to its exceptional performances, its ability to operate in extreme environments and its very competitive purchase and maintenance costs.
