

Passion for excellence and innovation

## FIRST QUARTER SALES: €9.5M

€M Year ended 31 March * unaudited.	2006 / 2007*	2005 / 2006	Ch / % Ch
First quarter (April-June)	9.5	8.1	+1.4 / +17%

### 17% ORGANIC GROWTH ON THE FIRST QUARTER OF THE PREVIOUS YEAR

The GECI International Group posted sales of €9.5M in the first quarter of 2006-2007 compared to €8.1M in the same period the previous year, representing an increase of 17%. GECI International thus reaffirmed its continued expansion with a ninth consecutive quarter of growth.

These figures are also in line with the Company's targets for 2006-2007. GECI International is looking to expand and diversify, in particular with growth more focused on the energy sector in which the Group has recently made strides.

### CRITICAL SCALE REGAINED

GECI International, with 630 employees on 30 June 2006 and recognised expertise and know-how built up over 25 years in major projects in France and abroad, has once again regained the scale required to win major new contracts and post significant net profit ratios.

As a recognised player in high-technology engineering consultancy and development, particularly in the aviation and transportation fields, GECI International expects to benefit from the ongoing policy of industrial outsourcing, used to improve responsiveness in a highly competitive global environment, and to continue growing to meet its profitability targets.

### BRIGHT OUTLOOK FOR 2006-2007

With a strong reputation as a top-quality service provider in the aviation field, GECI International should benefit from the strong demand amongst aircraft manufacturers, given that ongoing European aircraft programmes require expertise, particularly in a market where competitiveness and turnaround times are major issues.

GECI International should also be able to provide its full support for the establishment of an aircraft industry in Portugal, with a corresponding increase in sales. The Skylander has been designated a programme of national interest in Portugal and should soon come to fruition, requiring the support of GECI International's expertise.

### About GECI International

Vanguard positioning in the transportation field.

International high-technology engineering consultancy and development group dedicated to excellence and to capitalising on its expertise and know-how in developing innovative projects.

GECI International is listed on the Eurolist – Euronext Paris - Compartment C – ISIN code: FR0000079634 - GECP
